Here are entered works on forests consisting primarily of tall, broad-leaved evergreen trees located in areas of high annual rainfall chiefly, but not exclusively, in the tropics. Works on areas of luxuriant, impenetrable vegetation occurring where light penetrates along tracks or riverbanks in tropical areas or as second growth vegetation where tropical forests have been cleared are entered under Jungles.

element. Musical works, often small in scale and primarily of the 20th century, that combine elements of music, drama, and sometimes dance in unconventional ways that result in works distinct from traditional forms are entered under Music theater. Works about the broad area of music in the theater, including opera, musical comedy, pantomime, revues, etc., and works about more than one such type are entered under Musical theater. Music for theatrical productions consisting of musical numbers integrated into a dramatic framework is entered under Musicals.
